

RECOVERY SEED CARD

The recovery seed is a series of 5-digit numbers (12 to 24 units) that serves as your DIVER WALLET backup. You can use your recovery seed to easily restore access to your funds in case you lose your wallet app. Make sure you write down your numbers correctly and in the right order!

SECURITY WARNING:

It is highly recommended that you generate your seeds offline on your DIVER WALLET, rather than on your phone, to avoid leaving a digital trace.

1.	2.	3.
4.	5.	6.
7.	8.	9.
10.	11.	12.

DO NOT DISCLOSE THE SEED TO ANYBODY

Keep your recovery seed card in a trusted, safe place. Never make a digital copy of your seed or store it online as it may jeopardize the safety of your assets.
